CLINIC

Thermography Services

Call to schedule - 651.739.1248

Serving the greater Twin Cities area

Breast Cancer Awareness Special \$300 Value For **\$250**

- For New Patients Only -

The advantage of Thermography in disease screening is multifold:

It can reveal an increase in metabolic function LONG BEFORE conventional methods like mammogram, CT and MRI.

It is completely NON-invasive, uses NO radiation, is painless, and can be repeated as often as desired

Thermograms are read by licensed Medical Doctors specifically trained and accredited to read the scans.

Thermograms can monitor progress of treatment.

Active Cancer Cells Double in Number Every 90 Days

90 days	2 cells
1 year	16 cells
2 years	256 cells
3 years	4,896 cells
4 years	65,536 cells
5 years	1,048,576 cells (still undetectable)
6 years	16,777,216 cells
7 years	268,435,456 cells
8 years	4,294,967,296 cells (doubled 32 times) *

*Normally detectable by Mammogram at this stage

40 Doublings (Aprox 10 Years) considered lethal.

Purchase the Conners Clinic prepaid Thermography package in the months of September, October and November 2018 for \$250 (\$300 value) includes:
